ВЫПОЛНЕНИЕ УПРАЖНЕНИЯ

по дисциплине «Моделирование информационных процессов»

Студент: Маслова Анастасия

Группа: НКНбд-01-21

Цель лабораторной работы: приобретение первичных навыков работы в системе компьютерной математики Scilab и программе хсоз.

Постановка задачи: построить с помощью хсоз фигуры Лиссажу со следующими параметрами:

1)
$$A = B = 1$$
, $a = 2$, $b = 2$, $\delta = 0$; $\pi/4$; $\pi/2$; $3\pi/4$; π ;

2)
$$A = B = 1$$
, $a = 2$, $b = 4$, $\delta = 0$; $\pi/4$; $\pi/2$; $3\pi/4$; π ;

3)
$$A = B = 1$$
, $a = 2$, $b = 6$, $\delta = 0$; $\pi/4$; $\pi/2$; $3\pi/4$; π ;

4)
$$A = B = 1$$
, $a = 2$, $b = 3$, $\delta = 0$; $\pi/4$; $\pi/2$; $3\pi/4$; π .
